

## A New Standard in Non-Destructive Testing

### ARDROX 981 SERIES

**Benefits include:**

- Bright, crisp indications
- Low residual background
- Excellent heat and UV fade resistance
- Controlled washability, less susceptible to over-washing
- Excellent bleed-back properties
- Applied by immersion or conventional electrostatic spray
- **ARDROX 9881** – a new hydrophilic emulsifier with improved odour control designed to meet the latest surfactant regulations

### A New Generation of ARDROX

#### Post-Emulsifiable Fluorescent Dye Penetrants

Chemetall has developed a new range of **ARDROX** high performing, environmentally acceptable, post-emulsifiable, fluorescent dye penetrants that utilises the latest surfactant technology. The **ARDROX 981** series of products have low odour, low toxicity, high flash point, minimal environmental impact and show significant performance improvement. To complement this new range of penetrants, **ARDROX 9881**, a new hydrophilic emulsifier, has also been developed.

All products are approved to AMS 2644.
